

COVID-19 | Capstone Adaptive Learning and Therapy Centers

March 24, 2020

Greetings Capstone Families and Stakeholders,

Capstone Adaptive Learning and Therapy Centers is working diligently during the coronavirus pandemic to ensure all students and staff are safe. The health, safety and welfare of our students and staff has always been our number one concern. Even before this virus outbreak we practiced universal precautions of hand washing, disinfecting surfaces, staying home when sick, laundry, etc. This is what we do every day.

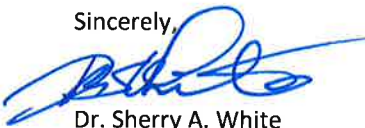

My staff and I are participating in daily teleconferences with entities such as Florida's Surgeon General and the Centers for Disease Control (CDC) to ensure we have the most recent updates on COVID-19.

We are screening everyone who comes into our facilities. Everyone gets their temperature taken. Only those who work at our programs or group homes are allowed on site. No other visitors are allowed into our facilities, unfortunately at this time, not even families.

We are keeping most of our programs open. A list of programs and their status is below. However, should it be deemed necessary to close we will notify each family as soon as possible.

It is an honor to serve you and your family. We thank you for your patience and understanding during this situation.

Sincerely,

Dr. Sherry A. White
President/CEO
